Solvency issues may be identified through market conduct examinations, financial examinations, or financial analysis of statements filed by insurers. If increased monitoring activity and insurer's response to that activity do not result in an improvement of the solvency issues, the Insurance Commissioner may petition the Superior Court for a rehabilitation order. Upon entry of a rehabilitation order, the insurer's management is suspended, and the Insurance Commissioner and his/her staff, as officers of the court, manage the insurer's operations. If rehabilitation is deemed unlikely, the court may order the insurer liquidated. The Insurance Commissioner continues to manage the operations of the insurer until liquidation is complete.
